April 9, 2020

Dear Parents and Guardians:

Priority Charter School appreciates your support, and collaboration during this time, as we face this unprecedented time in our nation. As always, the safety, security, and education of our students is of top priority. Please be assured that the Gifted and Talented Program will continue to provide educational opportunities that embrace Passion Based Learning, through secure digital teaching and learning platforms. To foster the love of learning, teachers will continue to encourage creativity, implement inquiry, and build meaningful learning that focuses on the students' interest and passion to help them discover the joy of learning.

During this extended school closure, the Gifted and Talented Committee will collaborate with parents, general education staff, and special programs to provide interventions and language supports through a virtually/online platform/delivery model.

As you are an integral part of the part of your child's educational experience, we invite you to visit the Gifted and Talented page on the district and campus website for current information, digital learning tips and parent resources. Should you have any questions, please contact TeRee' Jackson, Director of Gifted and Talented at [tjackson@prioritycharterschools.org](mailto:tjackson@prioritycharterschools.org)

Thank you for your educational partnership in your child's future.

Sincerely,

TeRee' Jackson

Director of Gifted and Talented
